Responsive Parliaments for a Stable and Prosperous ASEAN

EXPLANATORY NOTE

**RESOLUTION ON THE THREAT OF TERRORISM, VIOLENT
EXTREMISM AND RADICALIZATION**

Terrorism, Violent Extremism and Radicalization are crimes against humanity that have threatened all nations. Malaysia condemns all acts, methods and practices of Terrorism, Violent Extremism, and Radicalization regardless of their motives.

As a member of ASEAN, Malaysia sees the preservation of peace as paramount to ensure continued economic growth and political stability.

The resolution is an immediate response to the threat of terrorism, violent extremism and radicalization in the ASEAN region. These ubiquitous threats pose a significant risk to the security, stability, and prosperity of all ASEAN Member States and the global community as a whole.

This resolution clarifies the crucial role of responsive parliaments in addressing these challenges, focusing on the following aspects:

- i. As the primary legislative entities, parliaments are responsible for equipping their respective nations with comprehensive legislation to counter these threats. This includes the creation of strict, well-defined laws that punish terrorism, violent extremism and radicalization. These laws must simultaneously respect and protect fundamental human rights and civil liberties.
- ii. Inclusion in Society and Intercultural Dialogue: This resolution highlights the strategic role of parliaments in fostering societal inclusion and promoting intercultural dialogue, intending to address the root causes of these threats. Parliaments can prevent marginalization and disenfranchisement, frequently leading to terrorism, violent extremism and radicalization, by cultivating an environment that values diversity, equality, and mutual respect.

In a broader context, the resolution emphasizes the importance of inter-parliamentary cooperation between ASEAN Member States. Due to the transnational character of these dangers, a regional cooperative strategy is essential. By exchanging information, coordinating legislative initiatives, and aligning approaches towards societal inclusion, ASEAN parliaments can increase the region's capacity to combat these threats.

The resolution emphasizes the need for ASEAN parliaments to be proactive and responsive in mitigating the threat posed by terrorism, violent extremism and radicalization. To ensure a secure, stable, and prosperous ASEAN region, the resolution emphasizes the significance of preventative legislative measures, the promotion of social inclusion, and the necessity of regional cooperation.

AIPA Member Parliaments must interact with each other as well as their respective communities - in addressing terrorism, violent extremism and radicalization since they are involved in law-making and policy-making prerogatives that include resource-allocation, implementation and accountability across the spectrum of preventive response and sanctioning mechanisms.
