

Republic of the Philippines HOUSE OF REPRESENTATIVES Queson City

NINETEENTH CONGRESS Second Regular Session

HOUSE BILL NO. 8764

Introduced by HON. LUIS RAYMUND "LRAY" F. VILLAFUERTE, JR.

EXPLANATORY NOTE

This proposed bill adopts the proposal of former Supreme Court Justice Francis Jardeleza to define applicable baselines in the West Philippine Sea through legislation. This measure appears to be the most inexpensive and yet most effective means of enforcing the Arbitral Award and strengthening our territorial and maritime rights in the West Philippine Sea.

Firstly, it identifies by name and coordinates at least 100 features being claimed and occupied by the Philippines. This is an exercise of acts of sovereignty pertaining to each and every feature, consistent with the requirements of international law on the establishment and maintenance of territorial title. Secondly, it adopts normal baselines around each feature that qualifies as a hightide elevation. This is to delineate the TS of each of said feature. Thirdly, it reiterates continuing Philippine sovereignty, sovereign rights and jurisdiction, as appropriate, over these features.

The bill not only enforces the Award but also ensures that the Philippines is the first claimant to legislate the individual names and baselines of the claimed features.

In view of the foregoing, the passage of this bill is earnestly sought.
